

APA-5 EDGE PROTECTION GUARD

DESCRIPTION

Atlas Devices' APA-5 Edge Protection Guard is a load-rated nose guard attachment for the APA-5 that enables it to be ground loaded. Constructed from aluminum, the rugged guard attaches with a quick release pin resulting in a stable, load-rated platform for ground/deck loading. Carbide spikes integrated into the footprint provide a secure purchase for all surfaces - hard or soft.

The Edge Protection Guard provides the user with a broad range of employment options when anchors, high points, and space are limited while still enabling a battery change under load.

CAPABILITIES AND SPECIFICATIONS

PN: APA-5 BATT EDGE PRO

Brand: Atlas

Material Construction: Aluminum

Weight: 1 lbs / 0.5 kg

Deployed Dimensions: 10 in x 5.5 in x 2.5 in / 25.4 cm x 13.3 cm x 6.4 cm

Stowed Dimensions: N/A

Typical Reach Height: N/A

Capabilities and Specs:

- Enables hot swap interchange of battery while system is loaded
- Enables hoist operations without high point anchor
- Increased overall system traction via micro spikes
- Increases overall system stability
- Rescue load rated
- Lightweight and rugged

RECOMMENDED MISSION PROFILES

VBSS: Surface, Subsurface, Goplat, Tagline

Dive Operations: Boarding, Powered Ascent, Tagline

Rescue: High Angle, Airborne, Swift Water/Flood, Disaster Response, Maritime

Urban: Hook and Climb, RECCE/SNOT, EOD, Emergency Bailout, Industrial

Mountain: Alpine/Rock, Snow/Glacier, Adobe/Softwall

Airborne: Rappel, Fries/Spies, Non-Standard Aircraft, Rotary Wing Aircraft, Fixed Wing Aircraft
