

CTOMS - TRACE - BLUE KIT PRO PLUS (SINGLE) - Glacier Travel Kit (Single)

DESCRIPTION

As a Ski Guide, you know that a client falling into a crevasse can be very serious. The importance of an unobtrusive, small and lightweight, yet safe and effective rescue system is essential in the Guide's inventory. By adding only skis as an anchor, and ski poles as edge protection, the BLUE Kit PRO provides the capability to rescue an un-roped fallen skier from a crevasse with a minimalist approach and best of breed components.

CAPABILITIES AND SPECIFICATIONS

PN: TRACE-BLUE-PRO-S-KIT
