

CTOMS - TRACE - EMERALD KIT 150 - Parachute/Paraglider Tree Landing Escape Kit

DESCRIPTION

It's hard to look cool after you land in a tree. But recovering is easier than ever with the EMERALD Kit 150. A basic TRACE™ Systems kit, it is intended specifically for rappelling to the ground should a parachutist experience a tree landing. The kit comes standard with a 46m. TRACE™ Systems Rope. Rope length can be substituted with any stock length, or custom length with minimum order quantities. The Quickie Descender™ descend control device provides an auto-brake when hands are removed from the device for added safety during descent.
