

MISTY MOUNTAIN ISH BELT

DESCRIPTION

The platform of the Integrated Stealth Harness is the ISH Belt, designed to withstand forces of 13 kN (2,925 lb) while still functioning as a normal belt to secure your pants' waistband. The ISH belt provides a secure attachment point when used inside an aircraft, tower climbing, for short emergency rappels or other situations where positioning and safety are necessary. Dual layers of nylon belt webbing sandwiched around the inner HDPE stabilizers provide torsional stiffness and allow the belt to holster a sidearm without collapse. Designed to be worn underneath belt loops, the ISH belt can serve as a simple duty belt, or work as a lifesaving device. Burly forged steel slider bar buckle provides strength and ease of adjustment. Front and rear attachment loops are reinforced with 1000-D Cordura nylon. Poly-core webbing gear loops allow clipping mission essentials. Rear elastic loop allows connection to ISH Leg Loops (sold separately).

CAPABILITIES AND SPECIFICATIONS

PN: MISTY-ISH-BELT

Brand: Misty Mountain

Material Construction: Nylon

Weight: 11.6 oz / 329 g

Deployed Dimensions: N/A

Stowed Dimensions: N/A

Typical Reach Height: N/A

Available Colors: Coyote brown, Black, Multi-cam

MBS: 13 kN

Modular: Yes

Quick Releasable: N/A

Sizes/Lenghts:

Medium (31-36 in / 79-92 cm)

Large (35-40 in / 89-102 cm)

Extra Large (39-44 in / 99-112 cm)

RECOMMENDED MISSION PROFILES

VBSS: Surface, Sub Surface, GOPLAT, Tagline

Dive Operations: Boarding, Powered Ascent, Ladders, Tagline,

Rescue: High Angle, Airborne, Swift Water/Flood, Disaster Response, Maritime

Urban: Hook and Climb, RECCE/SNOT, EOD, Industrial

Mountain: Alpine/Rock, Snow/Glacier, Adobe/Softwall,

Airborne: Rappel, FRIES/SPIES, Non-Standard aircraft, Rotary Wing Aircraft, Fixed-Wing-Aircraft
