

MISTY MOUNTAIN ISH URBAN LEG LOOPS

DESCRIPTION

Our ISH Leg Loops upgraded with Austri Alpin Cobra Buckles. For activities where climbing, rappelling or hoisting might be involved, the operator can use the ISH Urban Leg Loops in conjunction with the ISH Belt, creating a climber's sit harness capable of withstanding forces of 16 kN (3,600 lb). The leg loops attach to the front of the belt with a locking carabiner (included) and in the back with a small aluminum clip attached to a durable elasticized nylon. Durably constructed from US woven nylon webbing and nylon fabric, the attachment point is reinforced with nylon. Each leg loop has an integrated auto block loop designed for attaching a prusik or klemheist knot for rappel backup. Leg loops are wide in back for comfort while tapered in crotch for less bulk. Currently the ISH System components are available in three colors - Coyote Brown, Black or MultiCam hybrid. ISH components are available individually or in different modular kits.

CAPABILITIES AND SPECIFICATIONS

PN: MISTY-ISH-URBAN-LL

Brand: Misty Mountain

Material Construction: Nylon

Weight: 12 oz / 340 g

Deployed Dimensions: -

Stowed Dimensions: -

Typical Reach Height: N/A

Available Colors: Coyote brown, Black, Multi-cam

MBS: 16 kN (in conjunction with ISH belt)

Modular: Yes

Quick Releasable: N/A

Sizes/Lenghts:

Medium (19-23 in / 48-58 cm)

Large (22-27 in / 56-69 cm)

Extra Large (26-32 in / 66-81 cm)

RECOMMENDED MISSION PROFILES

VBSS: Surface, Sub Surface, GOPLAT, Tagline

Dive Operations: Boarding, Powered Ascent, Ladders, Tagline,

Rescue: High Angle, Airborne, Swift Water/Flood, Disaster Response, Maritime

Urban: Hook and Climb, RECCE/SNOT, EOD, Industrial

Mountain: Alpine/Rock, Snow/Glacier, Adobe/Softwall,

Airborne: Rappel, FRIES/SPIES, Non-Standard aircraft, Rotary Wing Aircraft, Fixed-Wing-Aircraft
