

# MISTY MOUNTAIN MIRLOCK HARNESS

## DESCRIPTION

Misty Mountain's Milroc climbing harness is designed for safe travel over mountainous terrain. It features a reinforced captive tie-in point, pre-threaded quick adjust buckles for easy handling, side gear loop, rear haul loop and adjustable leg loop holdup straps. One size fits up to 48" waist maximum. Made from desert tan nylon webbing and non-reflective forged steel buckles, the Milroc webbing works flawlessly with the buckles for ease of use in an over-built system. Bi-color nylon thread bar-tacks match the tan webbing outer but offer black contrast on the interior to ease inspection. The Milroc climber's sit harness is UIAA Safety Label approved, made in the USA from all domestic components and Berry Amendment compliant. Selected by the US Army for two of the Army Mountain Kits, the Milroc is the first climbing harness designed by US Army engineering and Misty Mountain.

## CAPABILITIES AND SPECIFICATIONS

**PN:** MISTY-HARNESS-MILROC

**Brand:** Misty Mountain

**Material Construction:** Nylon

**Weight:** 18.2 oz / 0.516 kg

**Deployed Dimensions:** N/A

**Stowed Dimensions:** N/A

**Typical Reach Height:** N/A

**Available Colors:** Desert tan

**MBS:** 15 kN

**Modular:** No

**Quick Releasable:** N/A

**Sizes/Lenghts:** One Size - 48 in / 122 cm max

## RECOMMENDED MISSION PROFILES

**VBSS:** Surface, Sub Surface, GOPLAT, Tagline

**Dive Operations:** Boarding, Powered Ascent, Ladders, Tagline,

**Rescue:** High Angle, Airborne, Swift Water/Flood, Disaster Response, Maritime

**Urban:** Hook and Climb, RECCE/SNOT, EOD, Industrial

**Mountain:** Alpine/Rock, Snow/Glacier, Adobe/Softwall,

**Airborne:** Rappel, FRIES/SPIES, Non-Standard aircraft, Rotary Wing Aircraft, Fixed-Wing-Aircraft
